

## 小米路由器 mini (r1c) 初始化设置&刷机流程

### Process of Initialization settings & upgrading firmware in handset for r1c

**Attention: don't cut off the power during the whole process**

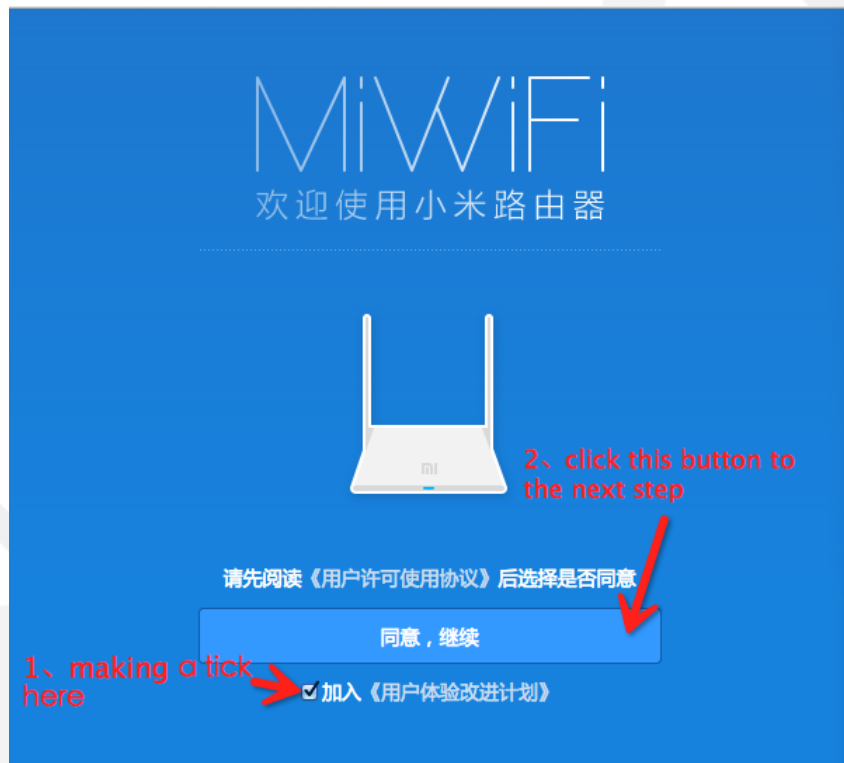

Step 1: connect the router to the power supply and cut the cable into the Internet port on the router (the blue one)

Step 2: connect your computer to the wifi named "xiaomi" or with a cable to the LAN port on the router

Step 3: open the browser and enter the url: [www.miwifi.com](http://www.miwifi.com)

Step 4: set your router as following steps

# MIWIFI

请设置Wi-Fi名称与密码

1、 rename the wifi

Xiaomi\_6E55

Wi-Fi名称

2、 set a password

Wi-Fi密码

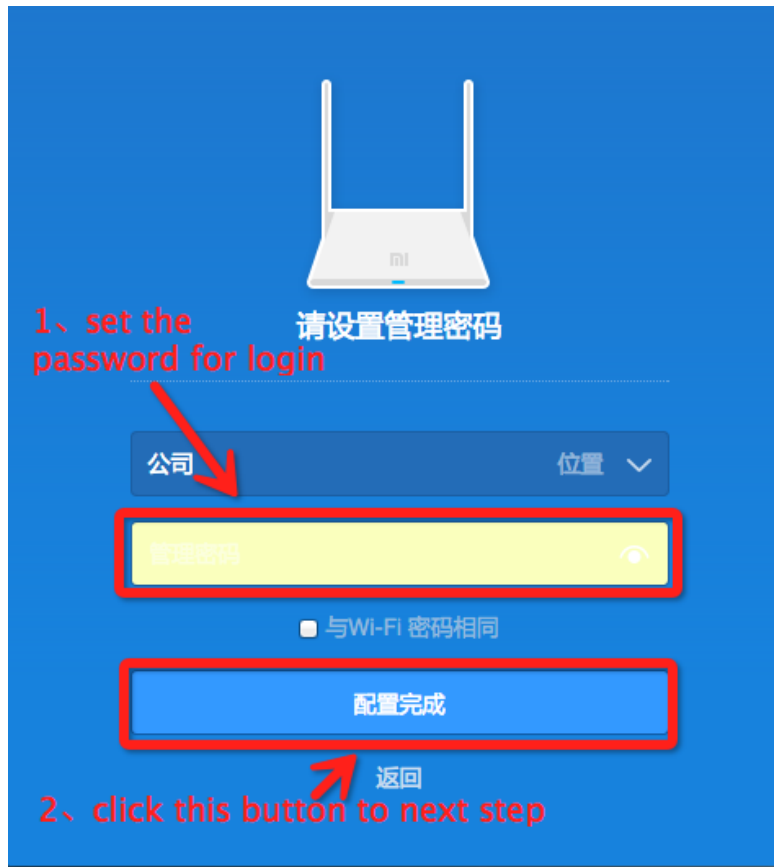

下一步

返回

需要拨号(PPPoE) | 无线中继 | 有线中继

3、 click this button to next step

**tips:**if you want to set the same password as the wifi password, just make a tick in the frame before the words “与 Wi-Fi 密码相同”.

wait a minute until you see the following interface.

Now, you have finished the initialization settings. Then, go to the next step to download the version you need.

waiting a while, the step perhaps needs 5~8 minutes. If you see the next interface, it means the operation has finished.

Step 5: set the system language

### 设置系统语言

select English as the system language.
